# 17-30-01: Scraped Surface Heat Exchanger Pasteurizer

Manufacturer: Schroder Kombinator, Type: WK250/2000-xz

## Information

This Pasteurizer is a continuously heater – cooler for production of viscose products like vegetable and animal oils and fats, such as emulsifiers, waxes, pharmaceuticals, vitamin supplements, starch or gelatins. The unit exists out of a scrape surface heater of 1 cylinder to heat the product ( $\pm 35^{\circ}\text{C} \rightarrow 85^{\circ}\text{C}$ ). Steam directly on jacket with steam regulating valve. The cooling part ( $\pm 85^{\circ}\text{C} \rightarrow 40^{\circ}\text{C}$ ) consists of a double-tube coil which is mounted in a frame work. The cooling water flows through the inner tube and the product flows in the opposite direction in the outer tube. In addition, the tube is cooled from the outside by means of irrigation cooling water. This rinse water is collected in the collecting tank and discharged by a pump. Including water and steam valves. Excluding control panel. Manuals in German language available.

## Description

<b>Offer number</b>	17-30-01
<b>Quantity</b>	1
<b>Description</b>	Scraped Surface Heat Exchanger Pasteurizer
<b>Manufacturer</b>	Schroder Kombinator
<b>Type</b>	WK250/2000-xz
<b>Capacity</b>	up to 3400 ltr/hr
<b>Temperature</b>	max 95 °C
<b>Product</b>	Margarine emulsion or similar products
<b>Year of manufacture</b>	1997
<b>Serial number</b>	11/3676-1-157852
<b>Power</b>	7,5 kW, 380 V, 50 Hz
<b>Weight</b>	$\pm 2.000$ kg
<b>Conditions</b>	Good
<b>Dimensions ( L x W x H )</b>	$\pm 4,00 \times 1,41 \times 2,75$ mtr
<b>Terms of delivery</b>	FCA
<b>Location</b>	The Netherlands
