QUOTE NR	26-08-01
MAKE/ TYPE	APV Liquiverter TB 150
CAPACITY	150 liter
SERIAL NR	27100590
YEAR OF MANUFACTURING	1999
POWER	7,5 kW
WEIGHT IN KG	216 kg
DIMENSIONS IN CM	135x65x145
CONDITION OF MACHINE	Good
LOCATION AND DELIVERY TERMS	The Netherlands

### DESCRIPTION

The unit is mounted on a stainless steel (RVS) frame with four adjustable feet, providing stability and easy positioning in the production area. The double-walled tank has a capacity of 150 liters and is suitable for temperature-controlled processes. The jacket is equipped with two push fit couplings for connection to a heating or cooling system.

For product input, the unit features a 1.5" Tri-Clamp connection for liquid ingredients and a 1" Tri-Clamp connection for a CIP spray ball, enabling efficient cleaning. The product outlet is fitted with a DN40 DIN connection.

On top of the tank is a round manhole cover with a diameter of 400 mm, fitted with a safety sensor and venting in the cover for safe and controlled operation.

Mixing is powered by a 7.5 kW motor with a 210 mm impeller, providing powerful and homogeneous blending.

The internal tank dimensions are 550 × 550 × 550 mm, with an overall height of 570 mm.
