Tetra Pak TAS05

QUOTE NR	26-07-01
MAKE/ TYPE	Tetra Pak
CAPACITY	400 liter per hour
SERIAL NR	T5845550264
YEAR OF MANUFACTURING	2001
POWER	5.5 kW
DIMENTIONS IN CM	107x56x105
CONDITION OF MACHINE	Good
LOCATION AND DELIVERY TERMS	The Netherlands
PRICE "AS IS" CONDITION	

DESCRIPTION

This high-pressure homogenizer is designed for pilot-scale and laboratory dairy applications. The unit is equipped with a two-stage homogenizing system featuring manual hydraulic pressure adjustment and a maximum operating pressure of up to 300 bar. The homogenizing assembly is fitted with ball-type valves suitable for processing viscous dairy products.

The machine is equipped with three ceramic plungers with a plunger diameter of 14 mm and a stroke length of 25 mm, ensuring reliable and consistent homogenization performance.

The housing is stainless steel clad, suitable for hygienic dairy processing environments. The unit is driven by a 5.5 kW electric motor.

Instrumentation and controls include an integrated control panel, a pressure gauge (manometer), and a cooling water flow switch for operational safety.
